

D-Tox

Feeding Instructions A unique complex of scientifically verified, naturally sourced antioxidants to support optimum health in all horses and ponies.

Horses & Ponies	g per day	scoops per day
Loading rate (7-10 days)*	27	3
Maintenance	9-18	1-2

*Feed the loading rate at any period of challenge to the horse's system.

Maintenance levels may be adjusted to suit the individual and are not necessarily related to bodyweight.

One 15ml scoop provides approx. 9g.
A 1.5kg pot fed at 9g per day will last approximately 166 days.
