

Mud Gard Supplement

Nutritional support for skin challenged by wet and muddy conditions

Feeding Instructions

Add to daily feed ration, ideally feed prior to the onset of wet, muddy conditions for best results.

Horses & Ponies

Loading rate (7-14 days)*	g per day	scoops per day
	69	3
Maintenance	23-46	1-2

* Repeat the loading rate as required. Introduce gradually for fussy feeders. One 50ml scoop provides approx. 23g. A 2.1kg pot fed at 23g per day will last approximately 90 days.

Maintenance levels may be adjusted to suit the individual and are not necessarily related to bodyweight.
